

# DIGI PARTNERS WITH THE NATIONAL WOMEN'S COMMISSION TO DELIVER FOR WOMEN AND CHILDREN

Digi contributed three thousand dollars (BZ \$3,000) to The National Women's Commission (NWC) to support its strategic role in championing women's causes, inspiring and catalysing change and mobilizing community resources.

The NWC continues to actively promote public awareness and encourage effective and coordinated efforts on matters relating to gender equality, equity, and women's empowerment. Our National Telecom's donation will help advance the programs of the NWC and support the organization's endeavours to meet their fifty thousand dollars (BZ \$50,000) fundraising goal. The resources will also be used to support safe houses in Belize that provide shelter for victims of gender-based violence and their children.

Our National Telecom looks forward to continue positively impacting the lives of women and children in Belize by working in partnership with the NWC and other key stakeholders.
